OUR APPROACH

The right team – Each member of our team of technical loss adjusters, engineers, surveyors and liability specialists come from a diverse set of construction backgrounds enabling them to provide practical advice and industry leading solutions to you and your clients.

Managing costs – With our clients, their customers and technical staff, we develop practical solutions that enable businesses to safely resume operations quickly while containing claims spent and costs.

Responsiveness – With the support of Sedgwick's regional and global network spanning 65 countries, we are able to rapidly respond to any loss situation, assist in loss mitigation, identify critical issues and drive the business recovery process.

Proactive loss management - Whatever the circumstance of the loss, our proactive and collaborative approach considers all parties involved with one common goal

–the successful resolution of the claim in the shortest time frame possible.

Client focus – Our success is based on understanding our clients' needs and meeting them consistently and seamlessly.

Integrity and trust – These are essential elements of our relationships, giving our clients confidence that when they use Sedgwick, they have the right team for the job.
